242-A Yale Station

New Haven

Sirs,

I am graduate student in the university and my wife and I listen to WYBC daily for part or all of your evening programming. We think the station the only one worth listening to in the area and can not tell you how much we ^{would} miss programmes if you were not on the air. We listen to your classical, jazz, and folk programmes especially, and find them valuable for their catholicity of taste. Occasionally we buy something we have heard on your programme and enjoyed particularly. My only criticism would be that, especially in the early weeks of this semester, you play defective records, which are very irritating. It seems to me that when you discover a record needs nudging you should destroy it and replace it rather than risk the same nonsense again. But I have noticed much less to ^{complain about} ~~to~~ in recent weeks. Many thanks for much pleasant listening,

Douglas Richardson
